

Post-APS 3rd Error/Non-Axisymmetric Magnetic Field Workshop

Date: 11/16/2007 Friday (PM)

Place: Rosen Centre Hotel, Orlando, FL

Final Announcement

Dear Colleagues

The 2nd Error/Non-Axisymmetric Magnetic Field Workshop was successfully held in Denver, CO after the APS DPP meeting in 2005 <http://web.gat.com/~lao/ef/efws2005/>. To continue to provide a forum for exchanging ideas and research results on this important current research topic of tokamak error/non-axisymmetric magnetic field, we are planning to have a 3rd Error/Non-Axisymmetric Magnetic Field Workshop on Friday 11/16 afternoon immediately following the APS/DPP meeting in Orlando.

We invite and welcome your participation. Please forward this announcement to other colleagues who may be interested.

Date 11/16/2007 (Friday) starting at 1:00 PM and ending by 6:00 PM

Discussion Topics

- Observation/Correction of Error/Non-Axisymmetric Field on Equilibrium/Stability
- Theory/Modeling of Plasma Response to Error/Non-Axisymmetric Field
- Importance of Resonant versus Non-Resonant Error/Non-Axisymmetric Field
- Progress in Understanding of Empirical Error Field Corrections

Workshop Format

The workshop will consist of invited and contributed talks (20-30 mins) plus a Discussion/Summary session.

Please indicate via return email to Lao@Fusion.gat.com by October 12 whether you plan to attend the EF/NA Workshop and/or giving a presentation including in the email *your Name and Affiliation and a Title* if interested in making a presentation.
